NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FORM NO. B 09-DN/HN

These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements.

Currency

The consolidated accompanying financial statements are presented in Vietnamese Dong (VND), under the historical cost principle and in accordance with Vietnamese accounting standards, accounting regime for enterprises and legal regulations related to the preparation and presentation of financial statements.

The consolidated accompanying financial statements are not intended to present the financial position, Income Statement and cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

Accounting period

The Company's fiscal year begins on January 01 and ends on December 31 of each year.

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

The Corporation's consolidated financial statements are presented in Vietnamese Dong (VND), under the historical cost principle and in accordance with Vietnamese accounting standards, accounting regime for enterprises and legal regulations related to the preparation and presentation of the consolidated financial statements.

The Corporation's consolidated financial statements are not intended to present the financial position, Income Statement and cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted by the Corporation in preparation of the consolidated financial statements are as follows:

Accounting estimates

The preparation of consolidated financial statements in accordance with Vietnamese accounting standards, the Vietnamese corporate accounting regime and legal regulations related to the preparation and presentation of financial statements requires the Board of Management to make estimates and assumptions that affect the reported amounts of liabilities, assets and the presentation of contingent liabilities and assets at the date of the consolidated financial statements as well as the reported amounts of revenue and expenses during the financial year. Although these accounting estimates are made based on the best knowledge of the Board of Management, actual results may differ from these estimates and assumptions.

Basis of consolidation of Financial Statements

The consolidated financial statements include the separate financial statements of the Parent company - Petrovietnam Power Corporation - JSC and the financial statements of the companies under the Corporation (subsidiaries) prepared in the same period as the consolidated financial statements. Control is achieved when the Parent Company has the power to govern the financial and operating policies of an investee so as to obtain benefits from its activities.

PETROVIETNAM POWER CORPORATION - JSC

Floor 8, 9, Vietnam Petroleum Institute Building, Trung Kinh Street, Yen Hoa Ward **Consolidated financial statements**

Cau Giay District, Ha Noi City, Vietnam

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FORM NO. B 09-DN/HN

These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements.

The subsidiaries' business outcomes acquired or sold during the year are presented in the consolidated income statement from the date of acquisition or up to the date of sale of the investment in that subsidiary. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by the Corporation.

All transactions and balances between subsidiaries within the Corporation are eliminated upon consolidation of the financial statements.

Business consolidation

The assets, liabilities and contingent liabilities of a subsidiary are measured at fair value at the date of acquisition. Any additional difference between the purchase price and the fair value of the assets acquired is recorded as goodwill. Any deficit between the acquisition cost and the aggregate fair value of the assets acquired is recognized in profit or loss of the reporting period in which the acquisition of the subsidiary occurs.

Non-controlling interests at the date of the initial business combination are measured based on the non-controlling interest's share of the fair value of the assets, liabilities and contingent liabilities recognized.

Investment in an associates

An associate is a company in which the Corporation has significant influence but is neither a subsidiary nor a joint venture of the Corporation. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The business results, assets and liabilities of associates are consolidated in the financial statements using the equity method. Associate investments are presented in the Balance Sheet at cost, adjusted for changes in the Corporation's share of the associate's net assets after the date of acquisition. Losses of an associate in excess of the Corporation's interest in that associate (which includes any long-term interests that, in substance, form part of the Corporation's net investment in that associate) are not recognized.

In case a member company of the Corporation conducts a transaction with an associates of the Corporation, unrealized profit/loss corresponding to the capital contribution of the Corporation to the affiliated company is eliminated from the consolidated financial statements.

Goodwill

Goodwill on the consolidated financial statements is the surplus between the cost of business consolidation and the Corporation's interest in the total fair value of assets, liabilities and contingent liabilities of subsidiaries, associates, or joint venture capital contributors at the date of investment. Goodwill is considered an intangible asset and is amortized on a straight-line basis over its estimated useful life not exceeding 10 years.

Goodwill arising from the acquisition of associates and jointly controlled entities is included in the carrying amount of the associates and jointly controlled entities. Goodwill from the acquisition of subsidiaries is presented separately as another asset on the consolidated balance sheet.

PETROVIETNAM POWER CORPORATION - JSC

Floor 8, 9, Vietnam Petroleum Institute Building, Trung Kinh Street, Yen Hoa Ward **Consolidated financial statements**

Cau Giay District, Ha Noi City, Vietnam

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FORM NO. B 09-DN/HN

These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements.

Upon the disposal of a subsidiary, associate, or joint venture, the carrying amount of any unamortized goodwill is included in the gain or loss arising from the disposal of the corresponding entity.

Gain from Bargain Purchase

Gains from bargain purchases are the excess of the Corporation's interest in the total fair value of the assets, liabilities and contingent liabilities assessed of subsidiaries, associates and jointly controlled entities at the date of the acquisition over the cost of the business combination. Gains from bargain purchases are recognized immediately in the Income Statement at the time they arise.

Financial instruments

Initial recognition

Financial assets

At the date of initial recognition, financial assets are recorded at cost plus that are directly attributable to the acquisition of the financial assets. The Company's financial assets include cash, cash equivalents, investments, trade receivables, other receivables, and other financial assets.

Financial liabilities

At the date of initial recognition, financial liabilities are recorded at cost plus that are directly attributable to the issuance of the financial liabilities. The Company's financial liabilities include borrowings, trade payables, other payables, accrued expenses and other financial liabilities.

Re-evaluate after initial recognition

Currently, there are no regulations on the revaluation of financial instruments after initial recognition.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, demand deposits, short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Financial investment

Held-to-maturity Investments

Held-to-maturity investments include those investments that the Company has the intention and ability to hold until maturity. Held-to-maturity investments are term bank deposits with the purpose of earning periodic interest.

Investment in other entities

PETROVIETNAM POWER CORPORATION - JSC

Floor 8, 9, Vietnam Petroleum Institute Building, Trung Kinh Street, Yen Hoa Ward **Consolidated financial statements**

Cau Giay District, Ha Noi City, Vietnam

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FORM NO. B 09-DN/HN

These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements.

Equity investments in other entities reflect investments in equity instruments but the Corporation has no control joint control or significant influence over the investee. Equity investments in equity instruments of other entities are stated at cost less any impairment losses.

Receivables

Receivables represent the amounts recoverable from customers or other parties. Receivables are presented at its carrying amount less allowance for doubtful receivables.

Provision for doubtful receivables is made for receivables that are overdue for six months or more or receivables that are unlikely to be paid by the debtor due to liquidation, bankruptcy or similar difficulties.

Inventories

Inventories are measured at the lower of original cost and net realizable value. The original cost of inventories includes direct materials, direct labor and, where applicable, those overheads incurred in bringing the inventories to their present location and condition. Inventories cost is valued using the weighted average cost method. Net realizable value is determined as the estimated selling price less the estimated costs of completing the product and the costs to be incurred in marketing, selling and distribution.

The Corporation's inventory impairment provision is made in accordance with current accounting regulations. Accordingly, the Corporation is allowed to make provisions for obsolete, damaged, or substandard inventories and in cases where the original cost of inventories is higher than their net realizable value at the end of the accounting period.

Tangible fixed assets depreciation

Fixed tangible fixed assets are stated at original cost less accumulated depreciation.

The cost of purchased tangible fixed assets comprises the purchase price and any other costs directly attributable to bringing the assets to working condition for their intended use. For fixed assets formed by basic construction investment by contracting or self-construction and production, the cost is the final settlement price of the construction project according to current investment and construction management regulations, other directly related costs and registration fees (if any). In case the project has been completed and put into use but the final settlement has not been approved, the cost of fixed assets is recognized at the estimated cost based on the actual cost incurred to acquire the fixed assets. The estimated cost will be adjusted according to the settled cost approved by the competent authorities.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives, as follows:

	Current period
	[Years]
Buildings and structures	5 - 25
Machinery and and equipment	5 - 20

PETROVIETNAM POWER CORPORATION - JSC

Floor 8, 9, Vietnam Petroleum Institute Building, Trung Kinh Street, Yen Hoa Ward **Consolidated financial statements**

Cau Giay District, Ha Noi City, Vietnam

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FORM NO. B 09-DN/HN

These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements.

Means of transport	5 - 10
Office equipment	3 - 7
Other fixed assets	3 - 5

Tangible fixed assets are revalued when there is a State decision or equitization of State-owned enterprises. The cost and accumulated depreciation are adjusted according to revaluation results approved by competent authorities as prescribed.

Gains and losses arising from the liquidation or sale of assets are the difference between the proceeds from the liquidation and the carrying amount of the assets and are recorded in the Income Statement.

Intangible fixed assets and depreciation

Intangible fixed assets include land use rights, computer software and other intangible fixed assets (licenses, copyrights) presented at original cost less accumulated amortization. Long-term land use rights are not subject to depreciation. Computer software and other tangible fixed assets are depreciated using the straight-line method over their estimated useful lives which is 3 years.

Investment property

Investment properties include land use rights, buildings and structures held by the Corporation to earn rental income or for capital appreciation, and are stated at cost less accumulated depreciation.

Investment properties are depreciated using the straight-line method over their estimated useful lives, as follows:

	Current period [Years]
Buildings, structures	4 - 25
Land Use Rights	4

Construction-in-progress costs

Assets under construction for production, leasing, administrative purposes or for any other purpose are recognized at their original cost. These costs include the necessary expenses to create the asset, such as construction costs, equipment costs, and other related expenses in accordance with the Corporation's accounting policies. These costs will be transferred to the original cost of fixed assets at the provisional price (if there is no approved settlement) when the assets are handed over and put into use.

According to the State's regulations on investment and construction management, depending on the management level, the settlement value of completed basic construction works must be approved by competent authorities. Therefore, the final value of the basic construction works may change and depends on the settlement approved by the competent authorities.

Prepayments

PETROVIETNAM POWER CORPORATION - JSC

Floor 8, 9, Vietnam Petroleum Institute Building, Trung Kinh Street, Yen Hoa Ward Consolidated financial statements

Cau Giay District, Ha Noi City, Vietnam

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FORM NO. B 09-DN/HN

These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements.

Prepaid expenses include actual expenses that have been incurred but are related to the business performance of many accounting periods. Prepaid expenses mainly include insurance premiums for long-term foreign loans, maintenance costs for factories, prepaid office rent, land rent, etc., and other prepaid expenses.

Insurance premiums, maintenance and repair costs are allocated to the income statement using the straight-line method over the term of the loan agreement and the signed long-term maintenance contract.

Prepaid office rent is allocated to expenses corresponding to the prepaid lease term.

Other prepaid expenses are considered to have the potential to provide future economic benefits to the Corporation. These costs are capitalized as prepaid expenses and allocated to the Income Statement using the straight-line method with a period of 3 years.

Accrued expenses

Accrued expenses include interest expenses payable and some other accrued expenses that have not been paid but are estimated and recorded as expenses during the year. Interest expense is recognized on the basis of principal and interest. Other accrued expenses are expenses that have been incurred during the year but have not yet been invoiced from suppliers.

Provisions for payables

Provisions are recognized when the Corporation has a present obligation as a result of a past event, and it is probable that the Corporation will be required to settle that obligation. Provisions are determined based on the estimate Board of Management of the expenditure required to settle the obligation at the balance sheet date.

Provisions for payables reflect maintenance and repair costs of power plants in the Corporation determined according to contracts (O&M contracts) and/or maintenance and repair estimates and repair plans for these power plants.

Revenue Recognition

Sales revenue is recognized when all five (5) of the following conditions are simultaneously satisfied:

- (a) The Corporation has transferred most of the risks and benefits associated with ownership of the product or goods to the buyer;
- (b) The Corporation no longer holds the right to manage the goods as the owner of the goods or the right to control the goods;
- (c) Revenue can be measured reliably;
- (d) The Corporation will derive economic benefits from the sales transaction;
- e. The costs related to the sales transaction can be determined.

Revenue from the sale of electricity is recognized when the outcome of the transaction can be measured reliably and it is probable that the economic benefits from the transaction will flow to the Corporation. Revenue is recognized when there is a record of confirmation of the amount of electricity transmitted to the national grid.

Interest income is recognized on an accrual basis, determined based on the balance of deposit accounts and the applicable interest rates.

PETROVIETNAM POWER CORPORATION - JSC

Floor 8, 9, Vietnam Petroleum Institute Building, Trung Kinh Street, Yen Hoa Ward **Consolidated financial statements**

Cau Giay District, Ha Noi City, Vietnam

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FORM NO. B 09-DN/HN

These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements.

Interest from investments is recognized when the Corporation is entitled to receive the interest.

Foreign currency

The Corporation applies the treatment of exchange rate differences in accordance with the guidance of Vietnam Accounting Standards No. 10 (VAS 10) "The Effects of Changes in Foreign Exchange Rates". Accordingly, transactions arising in foreign currencies are converted at the exchange rate on the date of the transaction. Balances of foreign currency monetary items at the balance sheet date are translated at the exchange rate on that date. Exchange rate differences arising are recognized in the income statement. Exchange gains from the revaluation of balances at the end of the reporting period are not used for distribution to owners

Borrowing Costs

Borrowing costs are recognized as an expense in the period in which they are incurred, except when they are capitalized in accordance with Vietnamese Accounting Standard No. 16 "Borrowing Costs". Accordingly, borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Income arising from temporary investment of loans is recorded as a reduction in the original cost of related assets. For separate loans for the construction of fixed assets or investment real estate, interest is capitalized even if the construction period is less than 12 months.

Tax

Corporate income tax represents the sum of current and deferred tax liabilities.

Current tax payable is based on taxable income for the year. Taxable income differs from net profit as reported in the Income Statement because it excludes items of income or expense that are deductible in other years (including losses carried forward if any) and further excludes items that are not taxable or deductible.

For Nhon Trach 1 Thermal Power Plant, according to Investment Certificate No. 47121000093 dated December 28, 2007, Nhon Trach 1 Thermal Power Plant (Petrovietnam Power Nhon Trach Joint Stock Company) were entitled an annual corporate income tax incentive rate of 20% of profits earned within 10 years from the date of operation and 22% in the following years. Nhon Trach 1 Thermal Power Plant was exempted from corporate income tax for two years from the date of taxable income and had a 50% reduction in tax payable for the following three years. From August 1, 2008, Petrovietnam Power Nhon Trach Joint Stock Company was merged into PetroVietnam Power Corporation - LLC and converted into a dependent accounting unit. 2014 was the last year that the Corporation applied to a 50% reduction in corporate income tax payable for the Nhon Trach 1 Thermal Power Plant project.

For the Ca Mau 1 Power Plant and Ca Mau 2 Power Plant projects, according to Investment Certificate No. 61101000098 dated March 31, 2010 issued by the People's Committee of Ca Mau province, these two project were entitled to tax exemption for 4 years, and a 50% reduction in tax payable for the following 7 years. 2019 was the last year that the Corporation applied a 50% reduction in corporate income tax payable for the Ca Mau 1 Power Plant and Ca Mau 2 Power Plant projects. Therefore, from 2020, the Corporation did not consider corporate income tax incentives for this project.

PETROVIETNAM POWER CORPORATION - JSC

Floor 8, 9, Vietnam Petroleum Institute Building, Trung Kinh Street, Yen Hoa Ward Consolidated financial statements

Cau Giay District, Ha Noi City, Vietnam

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FORM NO. B 09-DN/HN

These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements.

For Vung Ang 1 Thermal Power Plant, according to Investment Incentive Certificate No. 01/KKT dated February 12, 2008, Vung Ang 1 Thermal Power Plant were entitled to a corporate income tax rate of 10% for 15 years from the date of operation. It was exempted from corporate income tax for 4 years from the date of taxable income and had a 50% reduction in tax payable for the following 9 years. When the project is completed and put into operation, it will be submitted to the Prime Minister for a 10% corporate income tax rate throughout the project implementation period. 2025 is the fifth (05) year that the Corporation applied a 50% reduction in corporate income tax payable for the Vung Ang 1 Thermal Power Plant.

For Nhon Trach 2 Thermal Power Plant, Petrovietnam Power Nhon Trach 2 Joint Stock Company (a subsidiary of the Corporation) was obliged to pay corporate income tax at the rate of 10% calculated on taxable income from electricity production and trading activities for 15 years from the first year of revenue and the current income tax rate for the following years. NT2 was exempted from tax for 4 years from the time of taxable income from electricity production and business activities and had a 50% reduction in tax payable for the next 9 years.

The Hua Na Hydropower Plant investment project is a new investment project located in Que Phong district, Nghe An province, which falls under the area with particularly difficult socio-economic conditions according to Decree No. 124/2008/ND-CP dated December 11, 2008, and Decree No. 218/2013/ND-CP dated December 26, 2013, of the Government. According to Corporate Income Tax Law No. 14/2008/QH12 dated June 3, 2008 of the National Assembly, modified and supplemented by Law amending and supplementing a number of articles of the Law on Corporate Income Tax No. 32/2013/QH13 dated June 19, 2013, Hua Na Hydropower Joint Stock Company (Subsidiary of the Corporation) was entitled to a preferential tax rate of 10% for the first 15 years of operation, tax exemption for 4 years, and 50% reduction in tax payable for the next 9 years. The tax exemption and reduction period is calculated continuously from the first year the HHC has taxable income from the investment project eligible for tax incentives.

For Dakdrinh Hydropower Plant, according to Investment Certificate No. 34121000029 dated June 25, 2008, Đakdrinh Hydropower Joint Stock Company (The Corporation's subsidiaries) was entitled to corporate income tax incentives as prescribed in Decree No. 24/2007/ND-CP dated February 14, 2007 of the Government detailing the implementation of the Law on Corporate Income Tax (now replaced by Decree No. 218/2013/ND-CP dated December 26, 2013).

Other subsidiaries are obligated to pay corporate income tax according to a tax rate of 20% of the taxable income.

Deferred income tax is calculated on the differences between the carrying amount and the tax base of assets or liabilities in the financial statements and is recorded under the Balance Sheet method. Deferred income tax liabilities are recognized for all taxable temporary differences, while deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilized.

Deferred income tax is determined using the tax rates that are expected to apply to the period when the asset is realized or the liability is settled. Deferred income tax is recognized in the Income Statement, except when it relates to items recognized directly in equity, in which case the deferred income tax is also recognized in equity.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right of the Corporation to offset current tax assets against current tax liabilities and when the deferred income taxes
